## K-loop pouch with zip

- Durable pouch, made from recycled cotton and recycled polyester.
- Multi-purpose: vanity case, storage bag, pouch.
- This pouch is part of the "K-loop" project.

Recycled cotton / recycled polyester. Pouch/vanity case with zip in two sizes. This bag is part of the "K-loop" project. With this project, Kimood is literally closing the loop of the circular economy. The cotton used comes from waste generated in the production of cotton items for the Kariban brand, and the KARIBAN BRANDS range. The added polyester comes from recycled PET plastic bottles. During the recycling process, tracers are added to the yarn in the form of viscose and ceramic filaments to act as a unique digital fingerprint. The tracers reflect light in a unique way and therefore carry a clear and tamper-proof code. This allows us to unequivocally store in a blockchain all the information from the processes the yarn has been subjected to. Thanks to the Aware™ tracer technology and associated blockchain platform, Kimood allows the end consumer to track the entire production process. This guarantees that the product has been recycled using its own waste, with no possible alterations in the process. A special label with a QR code provides access to the Aware™ platform for direct authentication of certifications using a smartphone. Average weight size L : 0.00000g.
